Hayli Dennis
Family Heritage

Dear Hayli,

Thank you for being so patient with the scheduling of meetings to present the Family Heritage products to our employees. This is the busiest season for construction work, so it seems nearly impossible to find time to connect with our employees about anything other than work, but you went above and beyond to make convenient times to meet with each employee.

We really like the idea of all financial matters going through the individual employee, rather than through the company. It saves me a lot of time without the hassles of payroll deductions and remittances.

It's been a pleasure working with you, and we've heard nothing but positive feedback from our employees as well! It's a good feeling to know you will be here to personally help with anything from questions to claims... that doesn't happen too often in today's world!

Thanks again for all your help!

Hayli,

THANK YOU for sharing Family Heritage with our family. Family Heritage has much to offer for all ages. The ability to choose specific coverages, policies with affordable premiums and understanding insurance is not a one size fits all makes your company stand out. Being able to pick what works best for our family made Family Heritage an obvious choice.

Icing on the cake is return of premium on Family Heritage policies. We look at your insurance as a savings account. We never heard of getting all of your money back if you don't use the policy! Putting the policy in place was quick and painless.

Working with you, Hayli, has been a great experience. You are a perfect insurance agent, knowing first hand how an illness can devastate a family financially. Your heart is truly in your job and your passion to help people makes it easy to work with you.

Thanks again for caring about our family.

Re: Letter of Recommendation Family Heritage

To whom it may concern,

Skinner Transfer Corp is happy to recommend the high-quality service of Family Heritage Company with Jake Wunder and Hayli Evans.

Jake stopped at our office on a cold call, when he started to explain the coverages and benefits for our employees I immediately wanted to hear more. Jake's professionalism was remarkable trying to figure out how to talk to our drivers who are only home once a week. Jake and Hayli volunteered to attend our team meeting that was scheduled for a Saturday and Sunday. After a brief overview of the coverages with the group, they both worked tirelessly to meet with each driver privately throughout the weekends and evenings.

The reputation Jake and Hayli have created with our employees has grown high, as we have had huge participation in the coverages. The simplicity of the process went seamlessly for Skinner Transfer as a company.

We strongly recommend Family Heritage; Jake Wunder and Hayli Evans for supplemental insurance coverages. They go above and beyond.

Sincerely,
SKINNER TRANSFER CORP

Dear Brian,

Thank you for working with our employees and offering them the protection and peace of mind that your products provide. Even though we do offer supplemental plans with other companies, Family Heritage has some unique features that are certainly appealing and make it worthwhile to offer to our employees in addition to what we currently have. Specifically I know many of the employees like the money back feature which separates your policies from others. In the end we want to give our employees the choice of what they feel is best for them and their situation.

As someone in HR/benefits, I appreciate how you have taken care of everything. Having you follow up with everyone and not having to do any payroll deductions makes things so much smoother for me. In addition, when anyone has ever had any sort of question, your responsiveness has been commendable. I would recommend any company to do business with Family Heritage.

Thank you for the services you and your company provide.

Sincerely,

Dear Brian:

Thank you for your courteous and professional presentations when explaining the benefits of Family Heritage Life Insurance to any interested City employees. They were informative and easy to understand. One feature of the plan that stood out to a few employees was the fact that if they enrolled and did not use the plan, they would get their money back.

I personally liked the idea that this benefit could be offered to our employees with no hassle or paperwork from me. I also appreciated the fact that you worked around the employees work schedules and talked with them on their breaks or made appointments with them outside of City work time.

Again, thank you for your time and patience in working with the City's employees.

Re: Insurance Services

Thank you very much for taking the time to visit with our employees about your company and the insurance products you have to offer them. Many of our employees were surprised at how much you had to offer and at how affordable the products were.

Personally, I appreciated the fact that you were here in person (several times!) to explain the products you have available. This was a big plus in offering our employees your products over another company.

Thanks again and come back any time.

RE: Reference

To Whom it May Concern:

Early in September, Brian Wilson and Justin Peppard visited my office and asked to introduce Family Heritage a company offering supplemental insurance. Briar Cliff currently offers supplemental insurance through competitor companies. However, after listening to their presentation, I found value in what they could offer our employees. They offered me several different options for communicating with employees. I chose to send an email to employees. Justin gave me the option of reviewing the email before hand and edit if needed. The notice was easy to read and understand. The process was very little work for me. Once the email was sent, I just forwarded affirmative responses to Justin.

I was pleasantly surprised to see the positive response. Justin promptly answered every email and set up meetings with each employee. I am impressed with the exceptional customer service that Justin exhibited. Justin was willing to work around everyone else's schedule and make the process run smoothly for our employees.

Thank you Justin for doing a great job and bringing Family Heritage and their products to Briar Cliff.

Dear Brian;

Just a note to thank-you for sharing your supplemental insurance plans with our employees. I am not surprised that many of employees, both male and female, chose to go with different plans you offer. Unfortunately, in the past, a few of our employees could have used the supplemental coverage, before they knew it was available to them.

We appreciate the time you took to explain the products you offer, as well as your flexibility in meeting our busy schedules. Your approach is not pushy, and that in itself is an attractive selling point.

Sincerely,

Kari Wakefield
Office Manager

If you are reading this letter it means you should probably be doing business with Vance Davenport and Family Heritage. Both came highly recommended to me and after my "client experience" I highly recommend that you share Vance and the Family Heritage benefits with YOUR people.

After we made the decision to offer supplemental insurance (and I'm not really sure WHY we waited as long as we did) we wanted to be sure to offer the best benefits that would give the best value to our people.

We also wanted to keep the work we had to do on the corporate level to a minimum. When it was all said and done we would have saved a lot of time and resources if we had just gone with Family Heritage in the first place.

Here's why:

- The payouts on the benefits were some of the best we could find.
- The premiums were competitive with (if not better than) the others.
- The premiums are REFUNDED back to the employee if the insurance is not used (which raised employee interest and participation).
- Family Heritage was THE ONLY COMPANY that preferred to enroll without payroll deductions (HR loved that!).

We struggled with the fact that a couple of companies we looked at had more name recognition (from commercials, etc). We found that "bigger" doesn't necessarily mean "better".

I have actually had several employees approach me out of the blue and THANK ME for offering such a great supplemental insurance package. I've never experienced that before.

Dear Brian,

We feel fortunate at Farmers Bank and Trust Company, to have had you visit with us regarding the supplemental program through Family Heritage. When you initially spoke with me, I was immediately pleased, and signed up for the plan. I hoped our employees would feel the same, and they certainly did. I believe we had 100% participation, which is a huge indication of what an excellent job you did in explaining the plan, as well as how confident the employees felt with the plan. The fact that unused premiums are returned to the participant, was a great selling point to everyone.

We hope that in the future, nobody will need to send in a claim, as we all know our health and well being are so important. Yet, knowing that we have the supplemental insurance is peace of mind for all of us. We thank you Brian for making the plan so easy to understand, affordable in cost, and a positive investment for ourselves, our families, and our future.

To Whom It May Concern:

This past year I had the pleasure of meeting Curtis Rogers of Family Heritage Life Insurance Company. Our Company already had supplemental insurance with another company and had been with them over 25 years. At first I didn't see much hope that Curtis would be able to get our employees to make a change.

Our lumber yards are spread out over 350 miles across Nebraska. Curtis went to all our locations and met with all our employees. He not only signed up our employees that had the other company's insurance but also added several others.

Just recently Curtis made a second trip to our yards to visit with our employees under the plan and signed up some new employees.

Curtis has gone out of his way to service our locations and our employees have commented how they enjoy the personal touch and time Curtis has given them. I look forward to a long term relationship with Curtis and Family Heritage Life Insurance Company. Feel free to call me if there are any questions.

Sincerely,

Dear Curtis:

I haven't stopped hearing about what a great opportunity the Family Heritage Supplement Insurance is for our employees. I am so glad I took the time to listen and understand the benefits, so that I might share it with others who might benefit from it. Although, our company does have a nice health insurance package, there are always expenses that tend to fall through the cracks. Especially, when major accidents or illnesses are concerned.

Thank you for your professionalism and the time you spent at our facility. Those employees that were interested in the plan certainly loved the idea and appreciated your gentle handling of what could have been a difficult discussion. I enjoyed working with you and look forward to introducing you to our new employees.

Thanks again.

Dear Brian,

Thank you for working with our employees and providing a new insurance opportunity for them. Initially, I was uncertain what level of interest there would be, yet after hearing how affordable the coverage is many staff participated. It seems that most people have some level of concern about protecting themselves and their families against the financial challenges of serious illnesses and injuries. Add in the return of premium and it really makes sense. The plans you offer cater to the needs of our employees, from full-time management to part-time staff. Everyone can benefit!

Personally, I picked up the CancerCare Plus plan to protect me and my family because you never know what can happen. The policy covers cancer (which is a concern for everyone regardless of family history) plus a whole lot more. The "return of premium" feature certainly makes the plan very appealing knowing that any money I put into it will be refunded to me if I am fortunate enough to remain healthy.

Lastly, I must mention how great it is to have worked with you and your company. You have been very flexible with our busy schedules and it is so nice to have such a wonderful coverage to offer employees with no extra hassle or paperwork for me! This makes my life a LOT simpler. I would recommend any company to do business with you and Family Heritage.

Thanks for attending our team meeting to discuss your supplemental insurance plans

I have heard wonderful things from the agents at Pioneer Greens on the services you provide and also how you present your product. As you know, Real Estate agents hold very strange and hectic hours and you have been more than accommodating to their schedules, which helps them out tremendously.

I wish you great success with your supplemental insurance plans and look forward to hearing more from the agents who visit with you.

Just a quick note to tell you how much our facility appreciated working with you over the past month as we enrolled a number of our staff in your insurance plan options. I had many positive comments about how comfortable you made the staff feel, and they are grateful for the opportunity to take advantage of your program.

I equally appreciate the ease of enrollment and payroll deduction process. It's always nice when someone says that they'll handle everything, and then really do it. Thanks for affording our employee's a great plan, with a variety of options, and making it so easy to administer. Your professionalism and courtesy were outstanding!
